Section I: Introduction

Welcome to the John Maxwell Team Member website. This new design offers you the flexibility to update your biography, picture, social media links, etc., anytime changes need to be made. You no longer have to wait for the John Maxwell Team to make these types of changes. The most exciting change is you can now display your own links, videos, audio files and other documents (such as Word docs, PDF files and pictures) privately or for all visitors to enjoy. We have also designated spaces for your personal PayPal buttons, allowing you to collect payments and donations from visitors. Below are detailed instructions for your use.

Team Member Website Admin System

The admin system is located at <http://admin.johnmaxwellgroup.com/>. This site allows users to customize and manage their team member website. Users are able to manage and update the content on their site, like their biography, social media links and picture. The system also allows users to manage a list of their own videos, audio calls, and other documents, as well as adding PayPal buttons to their website for all visitors to partake in (accessible on the website under the section My Content). The user can also set these items as private and manage a list of website users that will be granted access to them (these users can access the page on your website titled “My Exclusive Content”).

In the admin system, you cannot edit your preferred email address. This address is associated with your John Maxwell Company affiliate link. To change this email, send your name, your original preferred email address and your updated email address to websupport@johnmaxwellteam.com. Please allow 5 business days for this change.

Team Member Website

Your team member website is an important tool for you to use in building your business. It provides your clients with exclusive content in the form of your own videos, calls and other important documents you would like to share with your clients. Each of your clients can have their own username and password, which you manage, to access the exclusive content. Visitors who are not exclusive members will have access to your bio, services, products, special offers & events, calendar, picture, link to your personal website, a way to contact you, and any content you set as “public”.

Section II: Team Member Website Admin System

You should receive your login information in your team member website and business card template delivery letter. Your username will be your preferred email address. If you have not received your login information, please send an email to websupport@johnmaxwellteam.com.

Coaching

“ A coach is some who can come alongside of you and correct you without criticizing you in a way that is negative...”

~ John C. Maxwell

My coaching involves the ability to understand you: to think how you think, and understand your perspective. From this benchmark, I will place another perspective on top of yours – steering and growing you to gently see a more empowering way. As a certified John Maxwell coach, I can see what you are going through now and what is up ahead. Coaching is foreseeing, paving the way, coming alongside you while helping you achieve goals and overcome limiting paradigms.

I offer two levels of coaching support:

Individual Coaching – one on one private and confidential coaching

When I am working with you one-on-one, it is my highest objective to help you reach your purpose, vision and goals by working through John Maxwell's programs specific to your needs. Together, we will create a strategic, powerful plan for you to gain clarity through a weekly process including, interaction and accountability.

- What are you doing to invest in yourself?
- What are you doing to invest in others?

“ No problem can be solved from the same level of consciousness that created it.”

~ Albert Einstein

Group Coaching – email setting onsite or via webinar and video technology

When I am working in a group setting – although it's not singular in nature – having the entire group's input in thinking magnifies the richness of the discussions and results in developing solutions that are above and beyond what any individual can create. The cohesive bond that is formed empowers each person to develop the leader within and enliven in a safe environment that nurtures the group as a whole. It is an experience unlike any other and follows the same premise as an academic think tank.

“ Between 25% to 40% of Fortune 500 companies use executive coaches.”

~ The HayGroup (USA)

“ I absolutely believe that people, unless coached, never reach their maximum capabilities.”

~ Bob Nardelli, former CEO, Home Depot

“ Better than a thousand days of diligent study is one day with a great teacher.”

~ Japanese Proverb

Please contact me, and together we'll create the most effective plan to move you forward.
